## AYSO 2019 Volcano International Soccer Tournament

### Sportsmanship Criteria

#### Tournament Participants,

One of the core values of AYSO is a respect for fellow players, family members, coaches, and referees. Demonstrating sportsmanship during the tournament is how we all are able to express this respect for one another. Sportsmanship can vary in the manner it is expressed, whether it be a player helping another whom is down, parents cheering on an opponent, or everyone thanking a referee, the demonstration of respect is at the heart of them all. The Volcano International Soccer Tournament would like to thank everyone for their participation in this event and for making sportsmanship a focus of both this weekend and going forward.

On the back of every 2019 Volcano International Soccer Tournament game card is a list of sportsmanship criteria for players, coaches, and spectators. Next to each criterion are four boxes: "Always", "Mostly", "Sometimes", or "Never". During the course of the game every referee is required to complete these forms by placing a check mark in one of the four boxes for each criterion. The maximum points a team can obtain during a single game is 32.

During the course of a game behavior by a team, player, coach (head, assistant, or substitute), or family member not consistent with the policies of AYSO will affect the team's "Sportsmanship Score" for that game. In addition, failure to show up to a game or forfeiture of a game will result in the reduction of a team's potential score as well.

Please refer to the tournament Rules and Regulations for more information.

The criteria listed on the back of each Volcano International Soccer Tournament card can be found below.

#### **Players**
